George Westinghouse seems to flourish on opposition. When everybody Be sure to bring it, darlings, and get says it is impossible to do a thing, be the cash—goodby! does it. They said the brake was im possible, but for nearly forty years it has been controlling the hovements of trains in all countries. They said that the alternating current was impossible to use in commercial practice. But Westinghouse used it. Then they said that it was a dangerous thing to have in a community and it would kill popu-lations. "They" were the experts. And they tried to have laws passed forbid-ding the used of this death-dealing current. In the files of the "North American Review" of about twenty years ago may be found a well-written and forci-ble article supporting these pessimistic contentions, and warning the country against the impracticability and danger of the alternating current. The article was written by Thomas A. Edison. But Westinghouse backed his belief with his courage, his fortune and his inventiveness, he employed experts of his own and brought others from abroad, and before long the alternating current was
everywhere in use for the transmission
of electric power over long distances, for a barn and garden. Good sidewalk from
the made it practicable and conquered
the dangers.

How much temperament has to do with health, or health with temperament, and both with success, we do not know, but we can sometimes guess. Mr. Westinghouse is one of the most sangume of men and has never had an illness. In that big frame of his the red blood flows and the buman engines work full-powered. He has been written of as "a hundred-thousand horse-power man." No phrase could better describe him. The men who are near him say that his capacity for work is greater than that of any ten of his subordinates, and he has twenty-five thousand men working in his industries.—Arthur Warren in Success Magazine.

### UNHAPPINESS DISPELLED. WILL CHANGE SHIRT WEEKLY.

Men and Women Unanimous About It. Many women weep and wall and refuse to be comforted because their once magnificent treases have become thin and faded. Many men incline to profanity because the flies bite through the thin thatch on their drantums. It will be good news to the filierable of both sexes, to learn that Newbro's Herpicide has been placed upon the market. This is the new scalp germicide and antiseptic that acts by destroying the germ or microbe that is the underlying cause of all hair destruction. Herpicide is a new preparation, made after a new formula on an entirely new principle. Anyone who has tried it will testify as to its worth. Try it yourself and be convinced. Sold by leading druggists. Send 9c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Rickert & Wells, Special Agents. Many women weep and wall and refuse weeks ago.

According to neighbors, Fred agreed that he would change his shirt every week, provided he was allowed to select the pattern and that Jennie would see that they were properly washed. Jennie hastily accepted the conditions, and now they have only to sign the Rickert & Wells, Special Agents.

# The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to care in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer the Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
